Techlight

INNOVATION IN ILLUMINATION

TECHLIGHT'S COMMITMENT TO QUALITY, SUPPORT, AND RELIABILITY

QUALITY

and quantity can go hand in hand. We're proof of that here at Techlight. We custom build all of our products to fit your specifications. All Techlight products are built with high quality, name brand components to maintain our high standard of reliability. At Techlight, we may be getting bigger, but we're still committed to offering personal, friendly service and quality products at an economical price. That's our promise to you. Always.

SUPPORT

We're with you every step of the way, with experts that will lay out a photometric and luminaire placement design for you, and help you decide the best products for your needs. We have a wide assortment of luminaires that is sure to not only meet your requirements, but exceed your expectations.

RELIABILITY

Techlight has the best lead times in the industry, so you can expect your shipment in days and weeks, instead of months. And, every luminaire is pre-tested and inspected by quality control supervisors before its final packaging.
