

## R-SERIES

### Large Copper Bullet

## DESIGN

The R4LWC Bullet Light was designed to set the industry standard for copper landscape bullets. Their sturdy copper construction allows them to be used in harsh environments. The various finishes available allow this fixture to blend seamlessly into the aesthetics of any landscape design.

## TECHNICAL INFORMATION

Constructed of spun copper, it comes standard with a 1/2" threaded knuckle mount and 4KV pulse rated medium base socket. Light sources are available in 100W-175W Mercury Vapor, 70W-175W Metal Halide, or 90W Incandescent. The fixture can be finished with a durable polyester powdercoat paint, left unfinished to patina naturally, or provided with a factory applied patina finish.

Notes: 1-Fixture may be provided with a Metal Halide ballast designed to operate a Mercury Vapor lamp.
