

## PRICE GUIDE INSTRUCTIONS

Techlight part numbers and pricing are set up in one of two manners. First, as a hard coded part number found as a single line item with a single price associated with it.

### EXAMPLE:

#### PRICING INFORMATION FROM PRICE GUIDE

LVSSWL-LED3000	3000K WARM WHITE LED WELL LIGHT	195.00
LVSSWL-LED4500	4500K NEUTRAL WHITE LED WELL LIGHT	195.00
LVSSWL-LED5500	5500K COOL WHITE LED WELL LIGHT	195.00

Example:  
\$195.00  
LIST PRICE

The second manner is where each option available for that fixture corresponds to an individual cost for that option. The total sum of the prices for each option determines the list price for that product.

### EXAMPLE:

#### ORDERING INFORMATION FROM SPECIFICATION SHEET

GES	7	1	5	7	3
Series	Color Temp	Shield	Base	Lens	Finish
GES	7 5500K Cool White (GESAV/5500) 8 3000K Warm White (GESAV/3000) 9 4500K Neutral White (GESAV/4500)	1 Up Shield (S174) 2 Down Shield (S175) 3 Tube Shield (S176) 4 Short Tube Shield (S187)	5 Low Profile Tree Base (GEPTBZ) 0 None (Mounting accessories ordered separately)	7 Diffuse Reduced Glare Dome Lens (LEDGIS120DOME)	1 Black 2 Bronze 3 OD Green 4 White 5 Special <sup>1</sup>

Each option chosen from the specification sheet corresponds to an individual cost for that option. The sum of the options chosen determines the list price for the complete fixture being purchased. A discount multiplier can be provided by your Techlight sales representative that may be applied to this list price in order to determine the purchase price for the product.
