

# Features & Specifications

## Application

The EE Indirect Luminaire is a classically styled fixture fit for any interior. They are designed to be wall mounted.

### Features

The fixture is a indirect light fixture. The fixture is ideal for indirect general illumination with no glare and an aesthetically pleasing housing. Provided with a ribbed acrylic diffuser.

### Construction

The housing is constructed of rigid extruded aluminum to provide a light weight load to walls. Fixtures can be individually mounted or installed in a continuous row.

### **Electrical System**

ETL listed. Suitable for damp locations. Damp location emergency pack must be specified separately. Ballasts are solid-state electronic. Ballasts and lamp holders are replaceable without removing from ceiling. Discrete voltage must be specified for emergency pack options when wired with flex.

### Finish

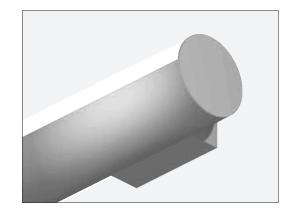

All reflective surfaces are finished with a high reflectance, lighting fixture white polyester powder. Special finishes available upon request.

# ECLIPSE SERIES EE 4" ROUND WALL LUMINAIRE

## End Caps

The Eclipse EE fixture was designed to be mounted as either a standalone fixture, or mounted end-to-end for continuous linear rows. The mounting configuration will determine the number of end caps needed to complete an installation.

End Caps should be ordered 2 per fixture for stand-alone fixtures or 2 perrow for continuous linear rows (# of fixtures x 2, or # of rows x 2).Part NumberDescriptionEEECEE Series End Cap (qty one)
