# ISR SERIES
# INDUSTRIAL STRIP RETROFIT

## Features & Specifications

***Application***

Retrofit Kits are a great way to modify an existing fixture to save time and energy.

***Features***

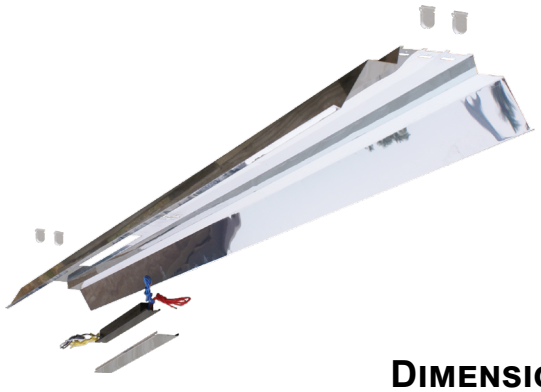
ISR Series is a complete reflector system, including socket plates for lamp relocation to provide maximum efficiency. Great substitute for replacing an entire industrial fixture or upgrading an existing strip fixture. This retrofit system allows for removal and discarding of the ballast cover, relocation of lamps, optimizing light output and reducing energy consumption to comply with utility rebate requirements. Available with either a white or Miro 4 industrial reflector.

***Electrical System***

Reflector kit is ETL classified as a ballast cover.

***Finish***

All reflective surfaces are finished with a high reflectance, lighting fixture white polyester powder.



## DIMENSIONS
