FEATURES & SPECIFICATIONS

APPLICATION

The LDVA Series of Angled Davit Arms with angled adapters were designed to mount directly onto a 3-1/2" OD tenon to allow the mounting of the Techlight LSMT, CTL, CTA Series LED Tennis Fixtures. The arms were designed to provide fixture symmetry and better lighting performance, and to provide the appropriate amount of extension over the playing surface to keep pole locations away from the playing boundaries.

CONSTRUCTION

The heavy duty arm is constructed of steel tubing. Each arm provides approximately 3' of rise and 3' of extension towards the playing surface. Angled adapters keep the mounted fixtures uniform and straight. LDVA Davit Arms are available in the following mounting configurations: Double 70° and Quad 70°.

FINISH

Super Durable Polyester powder coat finish is electrostatically applied in our state of the art paint facility. Standard colors available: Black, Bronze, US Green, White. Custom colors available upon request. Standard colors available: Black, Bronze, US Green, White. Custom colors available upon request.

ORDERING INFORMATION

Choose the bold face options for the appropriate luminaire configuration for your application and enter on the line above each fixture attribute. Accessories may be factory installed, depending on the particular accessory chosen, but still be ordered as a separate line item.
